2. Consolidated Business Results

(1) Results of Operations

In the second quarter, sales decreased 9.6% from one year earlier to 37,158 million year because of a decline in unit sales prices in accordance with the system of adjusting gas tariffs to reflect the cost of gas resources.

Earnings increased mainly because of a decrease in the cost of gas resources in conjunction with the decline in the price of crude oil. Compared with the second quarter of the previous fiscal year, operating income was up 110.4% to 2,795 million yen and, after non-operating income and expenses, ordinary income was up 99.3% to 3,067 million yen. Net income attributable to the parent company was 1,932 million yen, 150.0% higher than one year earlier.

Since the gas business accounts for most of our sales, there are seasonal sales fluctuations due to the nature of this business with sales peaking during the winter.

(2) Financial Condition

Total assets were 97,529 million yen at the end of the second quarter. This was 2,230 million yen less than at the end of the previous fiscal year due to a decrease in notes and accounts receivable and other items.

Total liabilities decreased 4,357 million yen to 56,165 million yen mainly because of decreases and notes and accounts payable.

Net assets increased 2,126 million yen to 41,364 million yen mainly because of an increase in retained earnings. As a result, the equity ratio was 40.3% at the end of the second quarter.

(3) Forecast for the Fiscal Year Ending March 2016

There are no revisions to the forecasts announced on May 13, 2015 for the full fiscal year ending in March 2016.

3. Summary Information (notes)

- (1) Changes in significant subsidiaries None
- (2) Use of accounting methods specifically for the preparation of the quarterly consolidated financial statements (Calculation of taxes)

At some consolidated subsidiaries, a reasonable estimate of the effective tax rate after application of tax effect accounting is determined in relation to income before income taxes in the current fiscal year. This rate is then applied to quarterly income before income taxes.

- (3) Changes in accounting principles and estimates, and retrospective restatements
- (Changes in accounting principles)

Starting with the quarter ended June 30, 2015, Hiroshima Gas is applying the Revised Accounting Standard for Business Combinations (ASBJ Statement No. 21, September 13, 2013), the Revised Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22, September 13, 2013), the Revised Accounting Standard for Business Divestitures (ASBJ Statement No. 7, September 13, 2013), and other accounting standards. As a result, for subsidiaries continuously controlled by Hiroshima Gas, monetary differences caused by changes in ownership are now included in the capital surplus and expenses associated with acquisitions are included in the fiscal years in which the expenses were incurred. In addition, there is a change involving business combinations that take place in the first quarter ended June 30, 2015 or afterward. The expected allocation of the cost of an acquisition, based on provisional accounting treatment, is reflected in the quarterly consolidated financial statements of the quarter that includes the date of the business combination. In addition, there are revisions to terminology for quarterly earnings and the minority interests item has been changed to non-controlling shareholder interests. To reflect these presentation changes, consolidated financial statements for the second quarter of the previous fiscal year and the previous fiscal year have been revised.

For application of the Revised Accounting Standard for Business Combinations and other standards, transitional measures as stipulated in section 58-2 (4) of the Revised Accounting Standard for Business Combinations, section 44-5 (4) of Revised Accounting Standard for Consolidated Financial Statements and section 57-4 (4) of the Revised Accounting Standard for Business Divestitures will be used starting with the beginning of the quarter ended June 30, 2015 and in subsequent fiscal years.

These changes had no effect on the monetary figures in the consolidated financial statements for the quarter ended September 30, 2015.
