1. Consolidated Business Results

(1) Results of Operations

In the third quarter, sales decreased 12.8% from one year earlier to 47,558 million yen because of a decrease in unit sales prices in accordance with the system of adjusting gas tariffs to reflect the cost of gas resources.

Earnings increased mainly because of a decline in sales. Compared with the first quarter of the previous fiscal year, operating income was down 42.4% to 1,912 million yen and, after non-operating income and expenses, ordinary income was down 39.4% to 2,197 million yen. Net income attributable to the parent company was 3,936 million yen, 67.0% higher than one year earlier because booking of extraordinary income due to gain on forgiveness of debts at consolidated subsidiary^(※).

Since the gas business accounts for most of our sales, there are seasonal sales fluctuations due to the nature of this business with sales peaking during the winter.

※The subsidiary has been excluded from scope of consolidation from the third quarter.

(2) Financial Condition

Total assets at the end of the third quarter were 102,419 million yen, which is almost comparable to the end of the previous fiscal year.

Liabilities declined 4,748 million compared with the end of the previous fiscal year to 55,618 million yen due to the completion of the repayment of claims provable in rehabilitation by a consolidated subsidiary^(※), a decline in liabilities resulting from forgiveness of debt and other factors

Net assets increased 4,810 million yen to 46,801 million yen mainly because of an increase in retained earnings. As a result, the equity ratio was 43.2% at the end of the third quarter.

※The subsidiary has been excluded from scope of consolidation from the third quarter.

(3) Forecast for the Fiscal Year Ending March 2017

There are no revisions to the forecasts announced on May 11, 2016 for the first half and the full fiscal year ending in March 2017.

2. Summary Information (notes)

(1) Changes in significant subsidiaries

None

(2) Use of accounting methods specifically for the preparation of the quarterly consolidated financial statements (Calculation of taxes)

At some consolidated subsidiaries, a reasonable estimate of the effective tax rate after application of tax effect accounting is determined in relation to income before income taxes in the current fiscal year. This rate is then applied to quarterly income before income taxes.

(3) Changes in accounting principles and estimates, and retrospective restatement:

(Changes in accounting principles)

In association with revisions to the Corporation Tax Act, Hiroshima Gas has applied Practical Solution on a change in depreciation method due to Tax Reform 2016 (ASBJ Practical Issues Task Force (PITF) Solution No. 32, June 17, 2016) from the first quarter of the current fiscal year. As a result, the depreciation method for building facilities and structures acquired on or after April 1, 2016 has been changed from the declining-balance method to the straight-line method. The application of the revision has no significant effect on earnings.

3. Quarterly Consolidated Financial Statements
